Purchase Leeds for Learning PE support package.	School to have access to specialist teachers to advise and support the PE / sports provision, including involvement in interschool sports events.	School is aware of training opportunities for staff and able to participate in wider community sports events.	£700	School has become part of a wider network so that as the pupils become old enough they can participate in interschool competitions. School has completed an audit of what is needed to support a broad and balanced PE curriculum 2016-17. Training for staff has been identified as well as an appropriate scheme of work and resources needed to teach this.
Increased equipment to support physical development in Foundation Stage.	To enable the school to effectively deliver the Physical Development strand of EYFS curriculum.	Good level of achievement and progress of pupils within the Physical Development strand of EYFS.	£1000	51% of children achieved the ELG for Moving and Handling. This closed the gap for a significant number of children who entered Reception below age related expectations.
Purchase items for pupils' PE kits.	For all children to be able to actively participate in PE lessons.	All pupils to have access to appropriate PE kit.	£1000	All pupils have been able to participate in PE lessons wearing appropriate clothes. A large number of our families would not have otherwise been able to provide suitable clothing for PE lessons.
Increased equipment for active learning in KS1.	To enable teachers to deliver daily quality active learning experiences in KS1.	Children have the opportunity to be physically active for at least 1 hour per day (including break times).	£1268	Timetables and ongoing monitoring show that pupils in KS1 were able to be physically active for at least 1 hour per day. We can demonstrate improved attendance for the stable cohort of Year 1 children – this is in part a result of improved health, an impact of these opportunities in school.
Support products for effective use of fixed large scale PE equipment	To enable pupils to safely use the fixed large scale PE equipment.	Regular lessons for pupils using large scale PE equipment as part of a balanced PE curriculum.	£1000	Children have opportunities to develop skills using large pieces of specialist gymnastic equipment.
Playground markings to encourage physically active playtimes and opportunities across KS1 and Foundation Stage.	For children to be inspired and supported in choosing to be physically active during unstructured times.	The majority of children are active for the whole of their break and lunchtimes.	£3666	The majority of children are physically active for at least an hour per day. Playtime incidents of poor behaviour are minimal because children are actively engaged in physical, co-operative play.
